

PROJECT UPDATE

DEF-111-5.89 S CLINTON STREET WIDENING PROJECT

Streets Included: South Clinton Street, Cedar Street, Schultz Street, Bouton Avenue, Emory Street, Deatrick Street, Downs Street and Sunday Street

Recap of Work Performed for week ending November 4, 2016
Projection of Work to be Performed for week beginning November 7, 2016

CONTRACTOR: Helms & Sons Excavating, Inc.

SUBCONTRACTORS: FET & ARL

Work Performed for week ending November 4, 2016

The contractor finished placement of asphalt in the Stage 2 Phase 2 zone. The traffic signal, signs and necessary pavement markings were installed. The detour was removed on November 1 allowing the project area to function in its final configuration. The video detection at the traffic signal was put into function on Friday, November 4th.

Projection of Work to be Performed for week beginning November 7, 2016

ARL is scheduled to place thermoplastic pavement markings for stop bars and crosswalks on Saturday, November 5th. Additional restoration and punch list work will take place for the next few weeks. Please continue to use caution when travelling through the area.

All projected work mentioned above is weather permitting.

Please feel free to contact me for any additional information.

Respectfully:

Melinda K. Warner, City Engineer
